

### **What is “fall of the hammer” mortality insurance coverage?**

Fall of the hammer mortality insurance coverage provides buyers immediate all risk mortality and theft coverage on horses purchased for 24-hours after the close of the Congress Super Sale internet auction. Embryos/unborn foals are not eligible. A Markel representative must be contacted to extend coverage after the 24-hour period.

All risk mortality and theft coverage reimburses you for the death, theft, or human destruction of your covered horse, including illness or disease.

### **How do I extend mortality insurance coverage on my newly purchased horse(s), or add my new horse to already existing Markel® policy?**

Markel's fall of the hammer mortality insurance coverage will cease 24-hours after the end of Congress Super Sale internet auction. To extend your insurance coverage beyond the 24-hour period, a Markel representative, or horse insurance specialist must be contacted. Horses in transit are not insurable until the final destination is reached.
