November 30, 2020

To Whom It May Concern,

The horse "Millie" owned by Dick Watson underwent a MC IV ostectomy surgery on her right front on October 1, 2020. She was rechecked on November 5, 2020 and found to be sound at a walk and when trotted.

This surgery is commonly performed and typically does not cause any performance limiting issues. Millie has made a full recovery from surgery.

If you have any questions regarding this letter please contact me at 979-778-2529.

Sincerely,

A handwritten signature in black ink, appearing to read "Nathan Canada", written in a cursive style.

Nathan Canada, DVM, MS, DACVS
