Dear Prospective Buyer:

Thank you for your interest in our Buckeye Bonanza sale horses this year! The purpose of this letter is to inform our prospective buyers of the following information on each horse:

- Any performance or pedigree highlights.
- Any known physical or behavioral problems.
- Our opinion of what uses, disciplines, or sports for which each horse might be well-suited.
- Our opinion of what experience level owner or rider each horse needs at this time.

Please be aware that although every effort has been made to completely disclose any known factors that might be considered negative, there is *no guarantee that an oversight will not occur*. Should an oversight occur, The Ohio State University and its agents cannot be held responsible.

Scarlets Golden Aero (Aero) was foaled at The Ohio State University Equine Facility in February 2019. Aero is sired by our herd stallion, Roosters Gold Spark, an NRHA and ARHA money earner who placed in the top 10 in Ranch Reining at the 2020 ARHA World Show. Aero's paternal grandsire, NHF Peppy Spark, is an ARHA World Champion, and his maternal grandsire, Little King Freckles, is an NCHA money earner. Aero's pedigree also traces back to legendary AQHA Hall of Fame stallions on both the sire and dam side with Shining Spark and Peppy San Badger.

Aero has been handled by our students consistently since birth. He was started under saddle this semester in the Advanced Equine Behavior & Training class with student trainer Alice Pozzi. Aero has no behavioral or physical problems of which I am aware. He developed capped hocks in January 2020 and was re-evaluated by our veterinarian last month to note their presence as a blemish with no signs of lameness present. A copy of his health records and training journals are included in his sale portfolio.

Aero has been ridden in the arena, around the farm, and hauled to Mohican State Park and Lobdell Reserve for trail riding. He is an athletic, responsive gelding that maneuvers obstacles with ease. With continued training, he could do well in a variety of ranch horse classes or out on the trail. Due to his limited experience under saddle, he is suitable for an intermediate or experienced rider at this time.

Sincerely,

Kimberly Cole, Ph.D.

To Who it May Concern:

This letter is in reference to a 2 year old horse named "Aero" owned by the Ohio State University College of Ag. I examined "Aero" on the 14th of September for swellings at the top of the hocks. The diagnosis was capped hocks and were not associated with lameness. They represent a blemish at this point and should be of no concern in the future.

Sincerely,

Dr. Bimbo Welker

Bitting/Tacking	3	He moved around while tacking up in the stall but did well when I tied him. He accepted the bit fairly well.
Longeing	4	He picked up the left lead after a few tries. He did everything else very well. He listened when asked to trot or halt.
Under Saddle	4	We walked, trotted, and cantered under saddle. He performed really well. We also went on a trail ride around the farm, he was well-behaved and wanted to be in the front.

Biting/Tacking	5	Aero was tied while getting tacked up and he was so much better. He stood still and did not try to move around in circles in the stall.
Under Saddle	4	He was very good at the trot, we also worked on bending and he did very well. It took a few tries to get him to pick up the canter. It was better going to the right than going to the left.

Bitting/Tacking	5	Aero stood still while tied in the stall and getting tacked up. He did not move which is a big improvement for him. I also got the bridle on him first try.
Under Saddle	4	Walked, trotted, and cantered under saddle. He can jog or extend the trot and bends well. He struggles to pick up the canter as it takes a few tries.
Basic Handling & Grooming	5	He stands still while getting hosed off. He is also good when getting fly sprayed.

Trailing	<input type="text" value="5"/>	Aero loaded and unloaded perfectly. He stepped on the trailer well and backed up of it slowly.
Under Saddle	<input type="text" value="4"/>	We went on our first trail ride off of the farm. He was nervous at first because of the cows but once we got going he did very well. We crossed a creek and after some encouragement he went through.

COMMENTS

Bitting/Tacking	<input type="text" value="5"/>	Aero has become very patient while getting tacked up. He is also accepting the bit a lot easier. He also stands still while tightening the cinch.
Longeing	<input type="text" value="4"/>	He picks up the correct leads on the longe line and listens when he is asked to trot, canter, or halt. Sometimes he tries to anticipate the canter instead of trotting but he trots when he gets corrected.
Under Saddle	<input type="text" value="4"/>	Aero performed well under saddle today. We worked on bending, yielding the hindquarters, and went over obstacles. Even when he was insecure, he went through the obstacles.
